STYLE OPTIONS

RACKABLE PANELS

All Malden Metals residential ornamental steel fencing is fully rackable up to 40 degrees. This will help your fence flow even in the largest sloped landscapes.

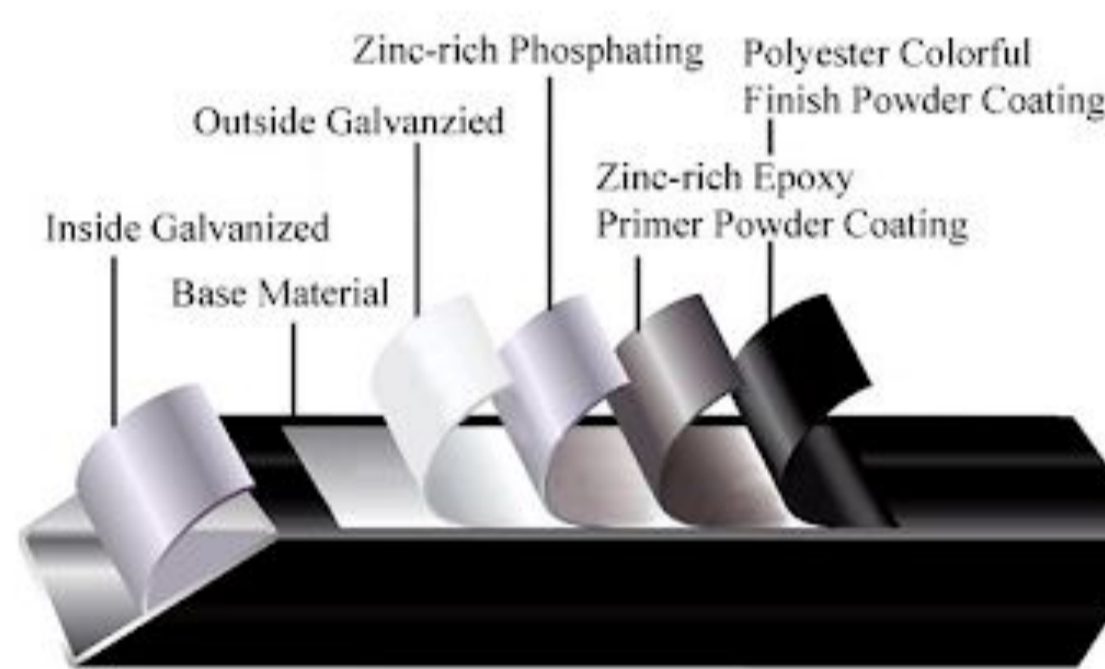

10 YEAR LIMITED WARRANTY

Malden Metals fencing products are manufactured using some of the strongest and top-performing materials in the industry. Malden Metals is extremely confident in the manufacturing of its materials and as so is proud to offer a 10-year limited warranty.

TRUE GUARD™ PROTECTION SYSTEM

- ▣ To prevent rusting from base material, all of our products are galvanized and have a Zinc Mass of 180g inside and out.
- ▣ To ensure superior adhesion, each of our products undergo seven stages of pre-treatment with zinc-rich phosphate.
- ▣ To cover all welds and cut edges, zinc-rich epoxy primer powder coating are applied.
- ▣ To achieve exceptional anti-corrosion and weather resistant performance, polyester finish powder coating are administered to our products.
